Founded in 2019, Growlight Solar Solutions is a next-generation renewable energy company committed to transforming the way India powers its future. With a focus on clean, efficient, and affordable solar energy, we provide turnkey solutions for residential, commercial, and utility-scale clients.

## Our Vision

To empower a sustainable future by making solar energy accessible to every home, business, and community.

## Our Mission

To deliver innovative, cost-effective, and high-performance solar solutions that reduce carbon footprint and support energy independence for all.

## Our Core Values

**Sustainability  
First**

**Integrity  
Always**

**Customer  
Centricity**

**Innovation  
Driven**

**Quality Without  
Compromise**

## Message from the Founder

*"At Growlight Solar Solutions, our journey began with a simple yet powerful belief — that clean energy is not just a choice, but a responsibility. Every rooftop we transform, every solar park we build, brings us one step closer to a greener tomorrow.*

*We are proud to lead this change by delivering reliable, high-quality solar solutions that make both environmental and economic sense. Thank you for joining us on this path toward energy independence."*

**- Divyaraj Singh Chauhan**

Founder & CEO, Growlight Solar Solutions

At Growlight Solar Solutions, we deliver end-to-end solar energy solutions built on trust, technology, and performance. From residential rooftops to large-scale solar parks, our systems are designed to be reliable, scalable, and future-ready. We serve homes, businesses, and institutions with smart, sustainable power. With every project, we bring India one step closer to energy independence.

|   |   |   |
|---|---|---|
|    | <b>1. Residential Solar Solutions</b>                   | Customized rooftop systems that reduce your electricity bills and make your home energy independent.              |
|    | <b>2. Commercial &amp; Industrial Solar</b>             | High-efficiency solar setups for factories, warehouses, and offices to cut operational energy costs.              |
|   | <b>3. Solar Street Lights &amp; Government Projects</b> | Solar-powered street lighting and turnkey government solar projects under schemes like PM-KUSUM and Smart Cities. |
|  | <b>4. Solar Parks &amp; Utility Projects</b>            | Development of large-scale solar parks with end-to-end EPC services for grid-connected clean energy.              |
|  | <b>5. Operation &amp; Maintenance (O&amp;M)</b>         | Complete care for your solar systems — routine checkups, performance monitoring, and quick issue resolution.      |
|  | <b>6. Solar Consultancy &amp; EPC Services</b>          | End-to-end project management — from design and engineering to procurement and installation.                      |

Over 500+ installations across 20+ cities — and growing.

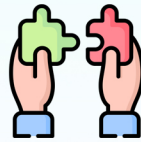

## Why Choose Us?

Choosing Growlight means choosing a partner committed to quality, service, and sustainability. Here's why our clients trust us to power their future.

### MNRE Approved

We comply with national renewable energy standards and support all eligible government schemes and subsidies.

### End-to-End Solutions

From consultation and design to installation and maintenance — we handle everything under one roof.

### High-Quality Components

We use only Tier-1 solar panels, certified inverters, and long-lasting batteries to ensure top performance and safety.

### Skilled & Certified Team

Our engineers and technicians are professionally trained, ensuring reliable, hassle-free installations every time.

### Transparent Pricing

No hidden costs — we provide clear estimates and detailed breakdowns, so you always know what you're paying for.

### Proven Track Record

500+ successful installations across residential, commercial, and government sectors with 100% client satisfaction.

## Our Partners

# Thank you!

---

Let's power your future together.  
Whether you need a solar solution for your home,  
business, or community — we're here to help.
